This National Company specialises in very hard wear resistant coatings applied to industrial tooling and machine components in the manufacturing sector.
These coatings increase the wear life, efficiency and performance of production tooling and it is a niche market in South Africa.
You will be required to:
 - 1) Follow and generate leads to acquire new and prospective customers
 - 2) Conclude sales for both coating and manufactured goods
 - 3) Record progress, opportunities and other pertinent customer information on the company's database
 - 4) Maintain customer relationships with current customers and expand their usage of both coating and manufactured products
